Illinois State Society of Radiologic Technologists

Welcome to National Radiologic Technology Week!!

Dear Imaging Professionals,

From one voice to many… Happy National Radiologic Technology Week 2021! This is always a great week of recognition and celebration for our profession. No matter how you choose to celebrate it, make it an awesome week for you and your colleagues. The I.S.S.R.T.'s National Radiologic Technology Week committee has worked hard to see that we, as a professional society, provide you with an inspiring and fun-filled week. As you look at the listing of daily activities, I am sure you will find many opportunities to have some fun, meet new friends, get a continuing education point, and maybe even win a Visa gift card! Please enjoy your week and have fun along the way. At the end of the week, I will be sharing with you some exciting new things you can expect as members of the I.S.S.R.T. If you are not yet a member, please consider joining YOUR state society. Have a great week!

Sincerely,

Patrick Murphy
