

## Illinois State Society of Radiologic Technologists

### **2022 National Radiologic Technology Week**

WOW! What a fun week. The presentation “Imaging From A Coroner’s Perspective” presented by Mr. Jamie Harwood was very informative. You could feel his pride in his work. Thanks, Jamie, for sharing with us again. Jamie had originally presented this at a prior ISSRT Annual conference.

The door decorating contest was fun to watch as the entries were being placed on the social media sites. Thanks for all your artistic work. They all are winners. It actually gave me an idea for the 2023 Annual Conference!

And finally, the Kahoot challenges. What a great review for not only the students preparing for the Registry. But for “old” technologists like me as well.... We will also be offering a session with Kahoot-Radiology Review at the 2023 Annual Conference.

Speaking of the 2023 Annual Conference, we hope you will plan ahead to join us in Bloomington on April 12-14, 2023. The conference committee is hard at work making new plans for the conference. If you are not a member of the ISSRT please consider joining now. We would like to have you be a part of OUR great society. To join or for membership information, please follow this link <https://www.issrt.org/membership/>.

In closing, I would like to give a big THANK YOU to Janelle Murphy and Andy Harmon for chairing this year’s NRTW. Your hard work and dedication is greatly appreciated. Again, thanks for all you gave and shared.

Pat Murphy  
ISSRT President
